– Więc dlaczego
mal mnie pan?

– Bo biorąc pod uwagę trudny

walescencji i redukacji, który

czolo, dobieranie mu się do op

byłoby niebezpieczne. Jego wola

lila mu bardziej

dzony, nie zdążył usiąść na krześ

nięcia. Może nawet by nie przysz

ły dzisiaj.

– Dobrze pan wie, że nie można ryzykować

i robić operacji przed upływem kilku miesięcy.

– Ten kretyn wszystko mi popsuje tymi swo

imi głupotami. Wszystko co robię tak sie ju

ż i zaczynam od nowa.

– Tak czy inaczej, zrobmy mu lobotomię, j

cze dzisiaj.

– Dobre pan wie, że nie można ryzykować

i robić operacji przed upływem kilku miesięcy.

– Ten kretyn wszystko mi popsuje tymi swo

imi głupotami. Wszystko co robię tak sie ju

ż i zaczynam od nowa.

Problem Statement

THEME: Social Issues

PROBLEM STATEMENT:

Even in the modern world when everyone is striving for equality and equal representation, men who've faced bullying, harassment or violence often lack resources to get justice and speak up. Our project, a platform called **OpenUp!** is a step in the direction that aims to improve the situation of men from a "Mental Health" point of view.

DESCRIPTION:

Through our app, men who suffered and are suffering said issues considered Taboo by society would be given a platform to speak up about the incidents they faced. Survivors would be able to connect to people with similar experiences. Professional mentors would offer guidance to them, while the supporters may support the survivors to report their issues to the authorities.

Interaction Context

There are mainly three types of users in our app - Survivors, Supporters, and Mentors/Professionals. They'll be interacting with the app in different ways. For example, the Survivors will be able to share posts, while the Mentors would be "assigned" to the people in need of help (if they want it). They will be able to access professional help and recovery modules.

The common interface for all will be a chat interface wherein users will be able to chat with each other and with the associated professionals. These users may "choose" to remain anonymous, or reveal their identity, or select certain users to share their identity with.

Interface Type

The platform is expected to be launched as an application and as a website. The application would be a concise representation of all the features the platform provides. The app would also provide SOS & Emergency contacts to the user. This can come in handy when a user is on the go. The website will be a more detailed interface where all the features of the platform would be described.

Some common interactions on both interfaces would be: Ability to chat, post, report and get professional help.

ThestoryBoard

Słowa przychodziły – łatwe, posłuszcne, zdolne oddać najdrobniejsze niuanse mojej myśli. To, że mogłem się wypowiedzieć, określić, wyrazić, wprawiło mnie w stan upojenia.

Zeus i Fichet, siedząc przy mnie na brzegu józka, słuchali tego z przynębieniem. Po upływie godziny Zeus Peter Lama złapał Ficheta za ramię.

– To nie do zniesienia. Trzeba coś zrobić.

– Wstrzyknę mu środek uspokajający.

– Nie, czuję się już lepiej – powiedziałem.

– Ile jeszcze tylko potrzebę mówienia.

– Daktor Fichet wyjął z kieszeni.

– Więc dlaczego tamtego wieczora poszedłeś do mnie pan?

– Bo biorąc pod uwagę trudny proces rekonescencji i reedukacji, którym musiał stawić czoło, dobieranie mu się do opon mogłoby być bezpieczne. Jego wola sukcesu powodowała mu bardzo szybko dojść do siebie. Oddechowany, nie zdążyłby ustąpić podczas swojego oddalenia. Może nawet by nie przeżył.

– Tak czy inaczej, zrobmy mu lobotomię, jeśli dzisiaj.

– Dobrze pan wie, że nie można ryzykować i robić operacji przed upływem kilku miesięcy.

– Ten kretyn wszystko mi popsuje tymi swoimi głupcami, a ja nie mogę się odzyskać tak, jak się już

Why does everyone bully me?

Neeraj, a 16 year old boy, who is quite shy and doesn't talk to a lot of people, is constantly bullied for not being masculine enough.

Nobody wants to be friends with you!

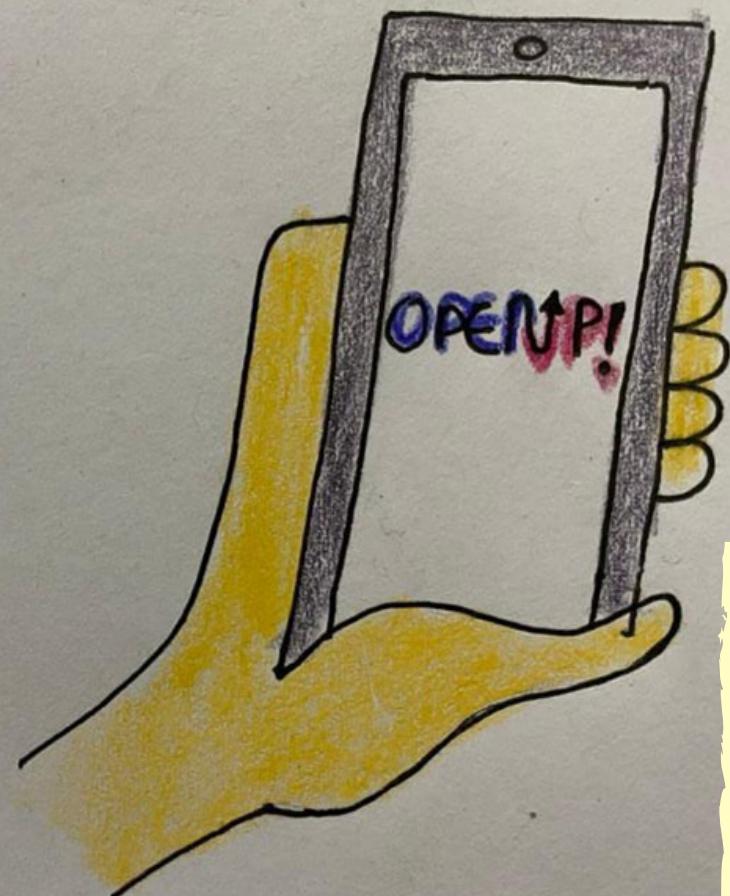

I don't want to be around anyone anymore, there is nothing happy left for me.

He cannot discuss the issue with his family and friends, as he believes they may not understand him. He feels alone, depressed and has negative thoughts.

Here you go!

His brother, Prajeet, notices that Neeraj looks depressed constantly and decides to tell him about the "OpenUp!" mobile app.

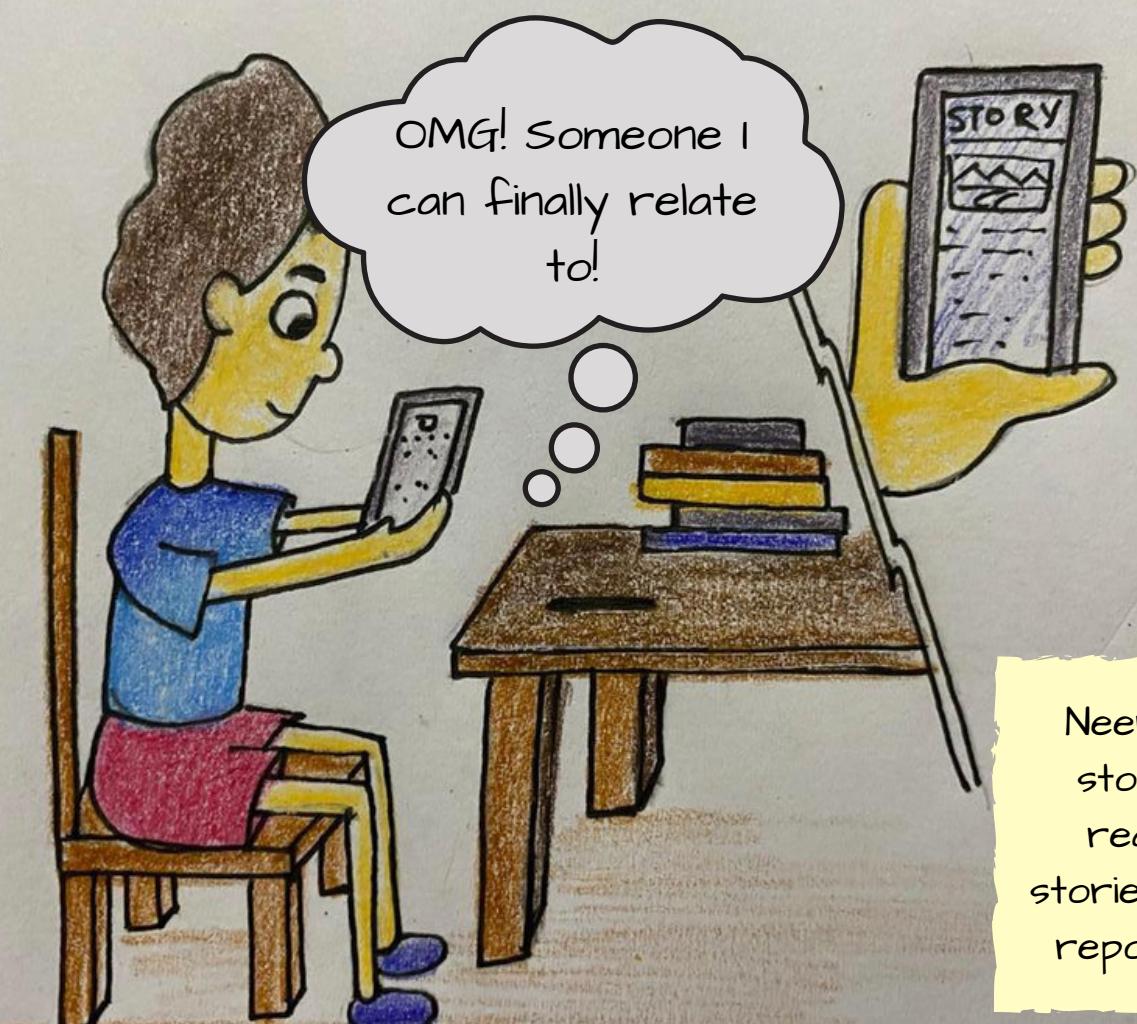

OpenUp! App

Neeraj downloads the application and sets it up. He is welcomed by the app logo which he thinks has a unique style of representation.

Neeraj is doubtful if the app will help him resolve his issue, but is excited to explore the app, especially the chat feature.

Neeraj anonymously posts his stories of struggle and also reads from other people's stories. Then, he uses the app to report the issue to his school.

The school authority took necessary actions against the bullies. To overcome PTSD, he signs up for a recovery module.

The app suggests him various activities like meditating and exercising, and provides guided tutorials regularly.

Neeraj finally feels like there is hope for him. He no longer feels as depressed as he used to, and no longer has negative thoughts.
